ELBE RIVER CRUISE

The cultural offerings and landscapes along the European river courses are highly versatile and partly still unexplored, however, they are definitely worth visiting.

Thus, many travelogues by cruise passengers can be found. Escape the daily routine and travel on board a cruise ship through the beautiful German landscape. Among the Southern side of the Elbe River, many cities string together with their magnificent European history, as well as their unique scenery.

Hundertwasser – Martin Luther – Saxon Wine – European Porcelain – Baroque Architecture – World of Music – Spectacular Sandstone Mountains and many more

AugustusTours provides all national and international guests with numerous programmes for land excursions. We arrange city tours and excursions, as well as bus transfers to and guided tours around many different sights of the area.

My tip for the Elbe Cruise:

„The Meeting at the Elbe“
Discover more about the incidents in Torgau in April 1945 while listening to a lecture event on board the ship!*
