In 2019, Germany will be celebrating the centenary of the founding of the Bauhaus. The 20th century's most significant and influential design academy, the “Staatliches Bauhaus”, was founded in Weimar in 1919 before later moving to Dessau. Closed in Berlin under pressure from the Nazis in 1933, the school of design only existed for a total of 14 years.

Form follows function: Bauhaus creations are amongst the classics of international design. Visit impressive exhibitions, e.g. the Dessau Masters’ House, explore the cradle of the modern avant-garde school in the new Bauhaus museum in Weimar and follow in the footsteps of Otto Dix in Gera.

Celebrate 100 years of Bauhaus together with your group during this cultural tour!
